

Finally, an affordable, **On-line Registration** solution for associations with modest budgets.

Paper-based, mail-in registration is costly and time consuming. Electronic registration is quick, convenient for attendees and reduces the effort needed to register attendees. Based on secure, flexible, open technology, **MarcoNLine™**, has been created with the smaller association in mind:

- *Small initial investment, low monthly hosting fees and no long term contracts*
- *Rapid set-up and hassle free management from a secure console*
- *Accommodates time-sensitive and coupon based pricing*
- *Secure credit card processing with email receipt confirmation*
- *Handles multiple events per year*

Integrates seamlessly with our **On-site Registration** services:

- *Proven to be capable of quickly and accurately moving large numbers through the registration process*
- *On demand printing/reprinting of badges and tickets for conferences and events of all sizes and complexities*
- *Complete provisioning of hardware, software and display devices*
- *Flexible architecture can implement the associations specific registration requirements*
- *System accepts multiple payment methods including: credit cards, cash, check, purchase and money orders and electronic fund transfers*
- *Skilled staff versed in ensuring a trouble-free, registration process*
- *On-site, on demand printing of registration statistics to enable better management*

and our **Attendance Tracking Services** with integrated **Survey** capability:

- *Scanning devices are used to collect tracking data to prove attendance at training and certification seminars*
- *A secure website is used to print/reprint certificates that attendees use for accreditation*
- *On-line surveys can be integrated with the certificate generation process to ensure that valuable survey data is collected and analyzed*
